-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2,7-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Glass 2,702,547.

Glass discloses a cartridge (4) for a fluid which comprises a cylindrical tank (5) having an opening adapted to admit and discharge fluid relative to the tank, the tank having a first longitudinal section and a second longitudinal section adjoining the first longitudinal section as seen in Figures 1-3, a piston (19) movable in a longitudinal direction toward and away from the opening to pump a fluid through the opening into or out of the tank, a connection element (29) adapted to engage an actuator (77) for moving the piston in the longitudinal direction, the connection element being adapted to mechanically interact with the actuator to produce a positive fit therewith, the connection element being movable back and forth between the first and second longitudinal sections of the tank so as to be alternately disposed in and engaging the first longitudinal section and disposed in an engaging the second longitudinal section as seen in Figures 1 and 2, and the second longitudinal section having a shape that forces the connection element to interact with the actuator to produce the positive fit when the connection element is in the second longitudinal section and the first longitudinal section

having a shape that automatically releases the positive fit when the connection element is in the first longitudinal section (col. 3, ll. 45-55 onto col. 4, ll. 1-81), a connection bushing as seen in Figure 2.

***Allowable Subject Matter***

3. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

4. Applicant's arguments filed 5/31/2006 have been fully considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3754

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Frederick C. Nicolas whose telephone number is (571)-272-4931. The examiner can normally be reached on Monday - Friday from 9:00 AM to 5:00 PM.
